

Who We Are and What We Do...

We are an urgent care facility specializing in convenient, timely, and cost effective medical treatment.

We are a staff of qualified board certified physicians, medical assistants, NP, LPN, RN's and technicians working in a friendly, professional setting.

We are a favorable alternative to the hospital emergency room or when it's not possible to be seen in a timely manner by your own family physician.

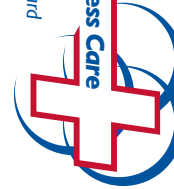

We are treating walk-in minor emergencies for the communities of Winchester, Decherd, Cowan and growing surrounding areas of Franklin & Coffee County.
